Accessing Organization Amazon Business instructions
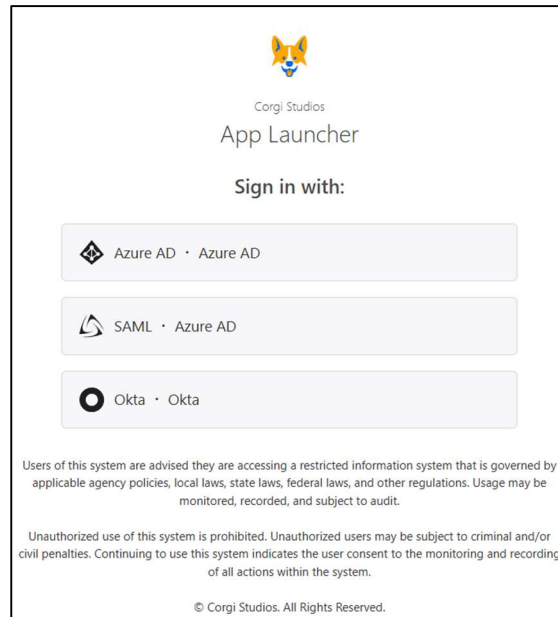

The following instruction is designed to guide the user through the process of accessing the Company Amazon Business and Business Prime. To learn more about Amazon Business benefits, please visit https://business.amazon.com/.

a. Go to Corgi Studios App Launcher, https://corgistudios.cloudflareaccess.com.

b. Choose "SAML • Azure AD" and authenticate using your Company Azure AD (Microsoft) account username and password. Pay attention, using the non-SAML method will not grant you access to Amazon Business.

c. On the welcome screen, you should see "Amazon Business" application icon. If you do not see the application, please contact your system administrator.

d. Open the Amazon Business application. An account should automatically be created for you. Enjoy your Company Amazon Business and Business Prime!

Please reach out to support@corgistudios.tech for help or questions.
